

NIKU

DIRECT FROM FARMS

WITH THIS PACKAGE, YOU'VE HELPED CHANGE A BROKEN SYSTEM

FARM FIRST THINKING

Small farms have traditionally been squeezed by a long supply chain, making it difficult for them to both operate ethically and maintain a living. By connecting directly with local sustainable farms, you are making a choice that puts small farms first, not last.

ETHICALLY RAISED MEAT

Our animals eat what they were born to eat, grazing on the wide open pastures of sustainable farms. They are also raised the natural way, without chemicals, antibiotics or hormones. You'll taste the difference!

LOCAL COMMUNITIES

With this purchase, you have invested in your local community. Your delivery was sourced from a nearby farm, ensuring that local farmers are supported by their urban neighbours.
