

OUR GUARANTEE

Our goal is to make you happy with every single NIKU Farms delivery. If you are not happy with anything in your box, please email us and we will do what we can to fix the issue!

RECYCLABLE PACKAGING

Your entire delivery package is curbside recyclable. Please recycle the box and liners. We encourage you to re-use the gel packs but if you choose not to, they can be recycled as well. For the gel pack; thaw it, cut off a corner, and empty the gel into compost, a toilet, or garbage. Recycle the bag.

FROZEN FRESH

In some cases, the meat may have begun to thaw when you unbox it. As long as the meat is still very cold to the touch, your meat is completely safe because it was kept in a refrigerated environment. The items are individually vacuum packed, so you can put the meat into your freezer or fridge without affecting its quality. Contact us if you are not sure, and we can help you out.

DID YOU GET GRASS FED BEEF IN YOUR PACKAGE?

Grass Fed beef is naturally leaner, and not as marbled as the corn fed beef you might be used to. In fact, this is one of the benefits of Grass Fed beef. It will also cook more quickly than grain-fed beef. Our advice? Lower the heat on the stove or grill. On average it needs about 30% less time to cook than grain-fed, and you should stick to medium-rare!

\$25 OFF YOUR NEXT ORDER?

Share your referral code with friends and family - When they use your code to make their first purchase, they'll get \$25 off their order, and you'll get a \$25 credit on your next package! For every additional person you refer, we'll send you an additional \$25 credit. Think about it this way: After you refer 6 new friends, you just got yourself a free package worth \$150.

Your unique referral code is:

[First Letter of Your First Name] + [Your Last Name] + 25

Example: John Smith = JSMITH25
